

THE POWER OF  
**ESD<sup>2</sup>**

WHEN HANDLE WITH CARE  
JUST ISN'T GOOD ENOUGH.

ENGINEERED PACKAGING AND HANDLING

conductive containers, inc.

Every day all across the nation, we provide shipping and handling to the world's leading manufacturers, with no charge.

Whether it's aerospace, medical, computer tech, or any number of high value component manufacturing industries, Conductive Containers is there. Without any static.

**SINCE 1978 WE'VE BUILT A REPUTATION AS THE LEADER IN STATIC SAFE PACKAGING AND HANDLING MATERIALS.**

We're known as the guys who know how to get rid of static, so more and more manufacturers count on us to review their manufacturing processes and use our expertise to eliminate ESD in their plants. We have the experience, the products and the materials to protect your high value components at every step of your process.

**PLANT & PROCESS REVIEW**

Within 24 hours, we can have an ESD expert anywhere in the country to provide a thorough review of your manufacturing process. We've helped manufacturers save millions and stem the flow of rejected parts with a site inspection. In one instance a \$500 solution ended a problem that had created \$250,000 in rejects.

**CCI AT A GLANCE**

- ESD EXPERIENCE-INVENTORS OF CORSTAT
- ENGINEERED DESIGNS
- PROTOTYPING
- DESIGNS IN CORSTAT, CFP, ESD FOAMS AND PLASTICS
- QUALITY
- COMPLETE PACKAGE AND HANDLING SYSTEMS
- SHIPPING, HANDLING AND STORAGE OF SENSITIVE BOARDS AND COMPONENTS

## ESD<sup>1</sup> ELECTROSTATIC DISCHARGE PACKAGING SOLUTIONS

Our experience in the industry has given birth to **thousands of packaging and handling solutions**. From trays and totes to filing boxes and waste baskets in all variety of static shielding materials. From Corstat® corrugated to conductive fluted plastics and shielding fabrics to CorCoat® — we have the products and materials to eliminate static. And best of all, they are available on short notice without any tooling costs.

## ESD<sup>2</sup> ENGINEERED SOLUTIONS & DESIGNS

Every day, our in-house engineers create new solutions to ESD problems. It's what we do. Their knowledge of static safe materials and package design allow us to take on any problem in any industry and deliver cost effective reliable solutions, tailored to the clients specific uses. Whether it's disposable, recyclable or reusable. We strive to understand the need. And provide the perfect solution.

## THE POWER OF ESD<sup>2</sup>

When you bring together the experience, the materials, and the manufacturing capabilities of CCI — you get ESD<sup>2</sup>. The power to overcome any ESD problem with practical, effective and cost efficient solutions.

**When handle with care — just isn't good enough. Turn to CCI for proven shipping and handling solutions — with no charge.**

# ESD<sup>2</sup> IDEA BOX

Conductive Thermoformed Tray and Cover to Fit Various Small Boards

CFP Shipper with Die Cut Conductive Foam Insert for Cushioning and Component Stability

Corstat In-Plant Handler for Static Safe, "Bagless" Storage and Handling of Circuit Boards

Corstat® Conductive Corrugated Bin with Thermoformed Conductive Kitting Trays

Stackable Conductive Fluted Plastic Nesting Tray with Custom Designed CFP Insert to Secure Board

CFP Case with Dissipative Thermoformed Insert Custom Fit to Component and Static Dissipative Cover

Stackable Conductive Fluted Plastic Tote with Thermoformed Slide Guide Adjustable Inserts for Holding PCBs

CFP Case with Carrying Handle. Custom Made Inserts for Large Circuit Boards Provide Added Protection and Cushioning
